## BIOGRAPHICAL NOTE

Carol Kramer was a leading figure in ethnoarchaeology, specializing in the Middle East and South Asia. She was also a major advocate for the professional development of women in anthropology and archaeology.

She was born on May 3, 1943 in New York City to Aaron Kramer, a poet and professor of English at Dowling College, and Katherine Kolodny Kramer, a social worker. She attended the High School of Music and Art and earned her B.A. at the City University of New York in 1964. Kramer initially studied archaeology in the graduate program at the University of Chicago, but transferred to the University of Pennsylvania after a year, where she earned her doctorate in 1971. Her dissertation was entitled “The Habur Ware Ceramic Assemblage of Northern Mesopotamia: An Analysis of its Distribution.”

In 1968, she was a site supervisor for University of Pennsylvania and Metropolitan Museum of Art’s joint archaeological excavations at Dinkha Tepe and Se Girdan, Iran as part of the Hasanlu Project, directed by Robert H. Dyson, Jr. She also served as site supervisor (1967, 1969) and Assistant Director (1971, 1973) for the Royal Ontario Museum’s archaeological excavation at Godin Tepe, known as the Godin Project, which was directed by Louis D. Levine and T. Cuyler Young, Jr. In 1970, she conducted her first ethnoarchaeological fieldwork under Ruben Reina, working with an urban potter in Antigua, Guatemala.

Kramer returned to Iran in 1975 to conduct ethnoarchaeological research in a Kurdish village in the Hamadān Province. Her work there resulted in several papers, including “An Archaeological View of a Contemporary Kurdish Village: Domestic Architecture, Household Size, and Wealth,” published in *Ethnoarchaeology: Implications of Ethnography for Archaeology* (1979), which she edited. She expanded upon her paper in her 1982 book, *Village Ethnoarchaeology: Rural Iran in Archaeological Perspective*.

For her next project, she intended to study pottery communities in Iran, but the outbreak of the Iranian Revolution forced her to change her plans, and she decided to shift her location to India. In 1980 and 1982-1984, she studied ceramic production and distribution in Rajasthan. Articles produced from her research include “Ceramics in Two Indian Cities” (1991), “Ceramics in Rajasthan: Distribution and Scalar Variation” (1992), “A Tale of Two Cities: Ceramic Ethnoarchaeology in Rajasthan” (1994), and “Social and Locational Contexts of Ceramic Distribution in Rajasthan” (1995). She also authored *Pottery in Rajasthan: Ethnoarchaeology in Two Indian Cities*, published in 1997.

Kramer returned to the field in 1995, serving as site supervisor for archaeological excavations in Gordion, Turkey. She returned the next year to explore the possibility of conducting research in Yassihöyük and other villages near Gordion as an extension of her village ethnoarchaeology research in Iran.

In 2001, Kramer further contributed to the field of ethnoarchaeology with the publication of *Ethnoarchaeology in Action*, which she co-wrote with Nicholas David. The landmark

book is the first comprehensive study of ethnoarchaeology.

In addition to her work in ethnoarchaeology, Kramer was also involved in promoting the professional advancement of women in anthropology. In 1980, Kramer and her colleagues (Roger Sanjek, Rayna Rapp, Carole Vance, and Glenn Peterson) drew up a resolution to implement the 1972 Resolution on Fair Practices in Employment of Women. They campaigned to raise funds and support for the resolution, which called for the American Anthropological Association (AAA) to censure universities that hired or promoted a low percentage of women. Due to their work, the resolution passed and AAA censured five departments in 1981. In 1988, she and Miriam Stark published, "The Status of Women in Archeology," a study of gender equity in archaeology. They looked at gender differences in the number of graduate students, PhD recipients, and funding recipients as well as in faculty composition. Kramer was also a member of the Committee on the Status of Women in Anthropology (COSWA) from 1973 to 1975 and host and discussion leader at the COSWA Roundtable on professional skills and the female archaeologist at the 1998 annual meeting of the Society for American Archaeology (SAA).

In 1999, Kramer was awarded the Squeaky Wheel Award by COSWA in recognition of her contributions to equity for women in anthropology. She also delivered the 1994 Distinguished Lecture to the Archaeology Section for the AAA, "The Quick and the Dead: Ethnography in and for Archaeology." In 2003, she was posthumously awarded the SAA's Award for excellence in Archaeological Analysis.

From 1971 to 1990, Kramer taught at Queens College and later Lehman College and the Graduate Center at the City University of New York, during which time she was a visiting professor at Yale University (1985). She also taught at the University of Arizona (1986-1988) as a recipient of a National Science Foundation Visiting Professorship for Women. In 1990, she joined the faculty of the University of Arizona, where she taught until her death.

Kramer passed away at the age of 59 on December 3, 2002.

## CHRONOLOGY

- 1943 Born May 3 in New York, New York
- 1964 Earns B.A. from The City University of New York
- 1967, 1969 Site supervisor of archaeological excavations at Godin Tepe, Iran for the Royal Ontario Museum's Godin Project
- 1968 Site supervisor of archaeological excavations at Dinkha Tepe and Se Girdan, Iran for University of Pennsylvania-Metropolitan Museum of Art's Hasanlu Project.
- 1970 Ethnoarchaeological research with an urban potter in Antigua, Guatemala
- 1971 Receives Ph.D. in Anthropology from University of Pennsylvania
- 1971 Hired as Assistant Professor at City University of New York
- 1971, 1973 Assistant director of archaeological excavations at Seh Gabi, Iran for Godin Project
- 1975 Ethnoarchaeological research in Iranian village
- 1977 Associate Professor, Lehman College and the Graduate Center, CUNY
- 1980, 1982-1984 Ethnoarchaeological research in Rajasthan, India
- 1985 Visiting Professor at Yale University
- 1986-1988 Visiting Professor at University of Arizona
- 1990 Hired as Professor at University of Arizona
- 1994 Presents distinguished lecture to Archaeology Section of American Anthropological Association
- 1995 Site supervisor of archaeological excavations at Gordion, Turkey
- 1996 Ethnoarchaeological research near Gordion, Turkey
- 1999 Receives "Squeaky Wheel Award" from COSWA/American Anthropological Association
- 2002 Died on December 3 at the age of 59

## SCOPE AND CONTENT NOTE

The bulk of these papers document the professional life of Carol Kramer. The collection contains field notes, writings, correspondence, daily planners, teaching files, photographs, sound recordings, maps, computer disks, and botanical specimens. Also in the collection are her notes and grade transcripts as a college and graduate student.

Her ethnoarchaeological research in “Shāhābād” (a.k.a. “Aliabad”) in Iran and in Rajasthan, India is well-represented in the collection in the form of her notes, maps, writings, and photographs. In addition, there are plant specimens that Kramer collected in Iran. Also among her research files are photocopies of her field notes from her work in Guatemala. Although her field notes from the Hasanlu Project are absent, the collection does contain a few photographs and some notes and correspondence from her research for her article on the Hasanlu Project’s excavations at Dalma Tepe. In addition, the collection contains “A System of Pottery Classification According to Shape,” a paper by Robert H. Dyson, Jr. and T. Cuyler Young, Jr. for the Hasanlu Project. Materials relating to the Godin Project consist of correspondence from 1996 and 1997 and a 1973 group photo.

Copies of her monographs are present in the collection along with drafts, figures, and correspondence for her published writings and dissertation. Many of the papers that she presented at professional meetings, seminars, and special lectures can also be found in the collection, including her 1994 AAA Distinguished Lecture, “The Quick and the Dead: Ethnography in and for Archaeology.” In addition, there are two cassette tape recordings of Kramer presenting her paper, “Ceramics in Two Indian Cities,” and the subsequent group discussion at the 1985 School of American Research Advanced Seminar, “Social and Behavioral Sources of Ceramic Variability.” Also of special interest are materials documenting her involvement in the 1981 “Resolution to Implement the 1972 American Anthropological Association Resolution on Fair Practices in Employment of Women.”

Kramer’s professional correspondence is spread throughout the collection, mixed together with other documents, filed by subject. Much of her later correspondence is in the form of e-mail printouts. Letters of reference she wrote can also be found on her computer disks, which consist of several 3.50” and 5.25” floppy disks. Other files on the disks include materials for her books and articles, research data, her performance evaluations files, notes for courses she taught, and her will.

It should be noted that Kramer was briefly married during the 1960s and 1970s to Christopher Hamlin, who was a fellow graduate student at the University of Pennsylvania. Thus, she is referred to as Carol Hamlin in some of the documents from that period.

## **RESTRICTIONS**

Materials with student grades and social security numbers have been restricted. The dates that the restricted items will be made available for access range from 2047 to 2064. Access to Kramer's computer disks is also restricted. Please consult an archivist for more information.

## **EXTENT**

31 linear feet (64 boxes, 2 cassette tapes), 1 oversize box, 1 map drawer

## **PROVENANCE**

These papers were donated to the National Anthropological Archives by Carol Kramer's sister, Laura Kramer.

## **PROCESSING NOTE**

The papers of Carol Kramer were received partially organized. The processing archivist kept existing groupings and arrangement and organized the collection into 15 series. Original folder titles were retained with titles assigned by the archivist placed within square brackets. Materials with student grades and social security numbers were separated and have been restricted. Items separated from folders due to restrictions and preservation reasons were replaced with a separation sheet providing a description and new location of the items. Separation sheets were also filed with separated items to indicate original locations.

The processing archivist would like to thank Lee Horne for her assistance in identifying and providing information on items in the collections. Her notes (signed and dated) can be found throughout the collection.

## SERIES DESCRIPTIONS AND CONTAINER LIST

### **SERIES 1. RESEARCH. 1961-1997 [Bulk 1969-1986].**

10 linear feet

This series contains field notes, genealogy charts, data analysis, correspondence and other research notes associated with Kramer's fieldwork in Iran, India, Guatemala, and Turkey. Other materials in the series include notes and data from Lee Horne and Rosalind Howell as well as Kramer's notes on writings by others. Her notes on pottery towards the end of *Subseries: Iran* may be associated with her dissertation. The field notes for Guatemala are only photocopies, and the materials relating to her work in Turkey primarily document her preparations for her trip. Absent from the collection are her field notes from the Godin Project and the Hasanlu Project. This series does contain, however, some correspondence from 1996 and 1997 relating to the Godin Project and notes and correspondence from Kramer's research for her 1975 article on the Hasanlu Project's excavations at Dalma Tepe. Also in this series are letters from her informants and assistants in Iran.

Other materials relating to her fieldwork can be found in *Series 4. Grants/Fellowships*, *Series 10. Photographs*, *Series 12. Maps*, and *Series 13. Botanical Specimens*.

## SERIES 2. WRITINGS. 1972-2002.

2.78 linear feet

This series contains drafts and published copies of Kramer's articles and books. Also in the series are correspondence and figures for her publications, reviews of her books (filed under *Subseries: Monographs*), and reviews she wrote for publication (*Subseries: Reviews*). Under *Subseries: Journal* is a copy of "Ethnoarchaeology," a special issue of *Expeditions*, which she edited with W. A. Longacre. *Subseries: Miscellaneous* contains letters, e-mails, and tables for unidentified publications and lists of her publications sent to colleagues. Folders are arranged chronologically by publication date.

Most of her research notes for her articles and books are filed under *Series 1. Research*. Papers she presented can be found in *Series 3. Talks*, while her dissertation is filed under *Series 7. Students*. More figures for her publications can be found in *Series 10. Photographs*.

### **SERIES 3. TALKS. 1972-1999.**

0.5 linear feet

This series contains papers Kramer presented at association meetings, seminars, and special lectures. Papers presented by other people at the same sessions can also be found filed with her papers. Of special interest in this series is her 1994 Distinguished Lecture to the Archaeology Section for the AAA, "The Quick and the Dead: Ethnography in and for Archaeology." Folders are arranged chronologically by presentation date.

Since a few of her papers were later published, some materials relating to her talks can also be found in *Series 2. Writings*. Documents associated with her organization of symposiums and conference sessions are in *Series 5. Professional Activities*.

**SERIES 5. PROFESSIONAL ACTIVITIES. 1966-2002**

.83 linear feet

This series reflects Kramer’s involvement in professional associations and her work on various review committees, including her reviews of grant applications and manuscripts under consideration for publication. Of special interest in the series is “AAA Resolution 1980/1981,” which contains drafts and correspondence that document Kramer and her colleagues’ efforts to pass the resolution to implement the 1972 AAA Resolution on Fair Practices in Employment of Women. Kramer’s reflections on that experience can be found under *Series 8. Personal* in “AAA 11/99 (Chicago): Squeaky Wheel Award.” Folders are arranged by date.

## **SERIES 6. TEACHING. 1971-2002.**

4.17 linear feet

This series contains Kramer’s course materials, student assignments, performance evaluations, department and university files, and correspondence as a professor at CUNY (Queens College, Lehman College, and the Graduate Center) and the University of Arizona and as a visiting professor at Yale and the University of Arizona. Documents containing student grade have been restricted. Course materials are grouped by subject and arranged by university.

Documents relating to the NSF grant that funded her visiting professorship at the University of Arizona are in *Series 4. Grants/Fellowships*.

**SERIES 7. STUDENT. 1961-1973**

2.71 linear feet

This series documents Kramer's undergraduate studies at CUNY and her graduate studies at University of Chicago and University of Pennsylvania. In the series are her class notes, assignments, transcripts, diplomas, and dissertation (including drafts, notes, and correspondence). Course files are organized by date.

Notes for her dissertation can also be found in *Series 11. Card files* and possibly *Series 1. Research*.

## SERIES 9. WRITINGS BY OTHERS. 1949-2001.

0.63 linear feet

This series contains publications by other authors annotated by Kramer, typescript manuscripts sent to Kramer by colleagues, and bibliographies. One of the papers in this series, "A System of Pottery Classification According to Shape," was written by Robert H. Dyson, Jr. and T. Cuyler Young, Jr. for the Hasanlu Project. Also in this series are notes from Steven Kuhn's University of Arizona course on quantitative methods for archaeology, Mesopotamian directories distributed by the Oriental Institute of the University of Chicago, and letters from colleagues sending copies of their books or papers to Kramer. Files are organized alphabetically by folder title.

**SERIES 10. PHOTOGRAPHS. 1967-1996.**

4.13 linear feet

This series is comprised of prints, negatives, 35mm slides, and notes on her photographs. Most of the images are from her field work in Iran and India. There are two notebooks in this series, one containing notes on her Seh Gabi contact prints and the other on some of her India photos. Most of the 35mm slides are labeled by Kramer. A 1973 group photo of the Godin Project can be found in “[Various group photos of Kramer and colleagues]” under *Subseries: Prints*, while images from the Hasanlu Project are under *Subseries: 35mm Slides* in “[Iran].” There are also 35mm slides of Gordion excavations and of Yassihöyük. Additional photographs include figures for her publications as well as some personal photographs. This series also contains photos by Bill Sumner, Lee Horne, Pat Mason, and Michael Schiffer. Negatives filed with prints have been separated for preservation reasons.

1.46 linear feet

This series contains botanical specimens collected by Kramer in Iran.

### Box 64

[Botanical Specimens]

#### **SERIES 14. SOUND RECORDINGS. 1985.**

2 cassette tapes

The two cassette tapes in this series are recordings from March 25, 1985 of the School of American Research Advanced Seminar, "Social and Behavioral Sources of Ceramic Variability," organized by W.A. Longacre. The recordings are of opening remarks by Longacre, Kramer's presentation, Gloria London's comments on Kramer's paper, and group discussions.

#### **SERIES 15. COMPUTER DISKS.**

This series is comprised of 5.25" and 3.5" floppies that contain drafts of her publications, letters of recommendation she wrote, files for her performance evaluations, notes for courses she taught, data from her research in Iran and India, and her will. Most of the documents on the 3.5" disks appear to be in WordStar 4 format. The 5.25" floppies have not been examined. According to the labels, they contain data from her research in India, files for courses she taught, files for her article, "The Status of Women in Archaeology," and letters of recommendation. Access to the computer disks is restricted.
